WEATHER CONDITIONS FAVOR

Fruit in Willamette Valley Promises to Do Unusually Well.

Salem-Climatic conditions during the past winter have been exceptionably favorable for all farm crops and dermation regarding the 19 the present fair weather is considered in referendum laws which ideal for fruit. The cold spring has kept the fruit trees back, thus protect ing them to a large extent from danger of injury from frosts and late rains. Growers expect fair weather through the blossoming period and with such conditions prevailing a full crop of fruit will "set."

Apples in the Willamette valley were a short crop last season and with even fair conditions this year the trees should bear an immense crop. Cherry, pear and prune trees are apparently in perfect condition and there seems to be no reason why a bumper crop should not be realized. The high prices accured in recent years for fruit has encouraged the growers to do more extensive pruning and spraying that ever before, aned for a period of two the result that the quality of fruit har-when returned by one or- vested will be exceptionally good. The to immediately sent out to coming of fair weather has set the plows going in all orchards and cultivation will this year be unosually thorough.

Clears Columbia Channel.

The Dalles—The Portland contract-ors, Wakefield & Jacobsen, who have been dredwing and otherwise clearing the narrow channel of the Columbia at what is known as Three-Mile rapids, near this city, have completed their work and brought the dredge to The Dalles, where it is now moored. The Dalles, where it is now moored. removal of the rocks and reefs from this portion of the Columbia has cost the government about \$100,000, and has occupied several years, though it could have been finished sooner but for the fact that it could not be carried on the year around, on account of high water. The Columbia is now free from impediments to the Big Eddy, where it connects with the portage road.

Pupils at Reform School.

Salem—The report of D. L. Looney, superintendent of the state reform school, shows that during the past quarter there has been expended as general expenses, \$7,024.93, and from the improvement fund \$114.30. The report, which was read and approved at the meeting of the board, consisting of Governor Chamberlain, Secretary of State Benson and State Treasurer Steel, shows there are 116 pupils in the insti-tution. There were 108 on January 1. Since then 25 have been admitted and 15 discharged. One has escaped and one is on leave of absence.

The Dalles to Have Float

The Dalles—At a meeting of the com-mercial club it was decided that this city shall be represented at the rose show in Portland by a float to be de-signed and constructed by J. W. Har-per, of Portland. A committee has made a canvass of the business bouses and obtained \$600, with the promise of an additional \$100. The float will be decorated with the products of this vicinity and will be one of the features of the spirit of the Golden West parade.

TRAVELING LIBRARIES

Wonderful Growth of Past Sixteen Years.

By Cornelia Marvin, Secretary Oregon Library

In 1905 traveling libraries had been authorized by law in twenty-five states. In sixteen of these, the libraries were in the direct charge of state libraries or library commissions.

This wonderful record of growth from the idea promulgated by Mr. Melvil Dewey in 1892 is a most significant testimenial, not only that illiteracy is becoming unpopular, but that good taste in reading is to become an Amer-ican habit. Time was when some of our scholars thought that bad reading was better that none at all. A well known teacher of English literature at one of our large universities stated to one of his classes twenty years ago that it would be better for people to read even the "Fireside Companion" then to have no reading at all. In those days our raral population had little or nothing to read. Magazines were expensive, and the almanacs and county papers made a very meager literary diet. Even the doubtful good of having the cheap weekly papers thrust into the dooryard was denied the average farm home.

In these days, when the farmer is just as close to the heart of the world as the rest of us, if he chooses to be, he is greeted by a bewildering opporjust as close to the heart of the world as the rest of us, if he chocaes to be, he is greeted by a bewildering opportunity for choice among medicare and even more vicious publications than were common twenty years ago. There are capable men and women, highly were common twenty years ago. There are capable men and women, highly cultivated and useful citizens, whose early reading was largely of the charthe youth of a generation ago to devel-op into a useful and law abiding citi-zen? The influences of the dukes, haughty countesses, swaggering pirates and common ruffians of those days was certainly not so quickly transmuted into bad conduct as that of the current yellow favorite.

Isolation had its advantages for the

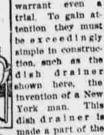

people on our farms. Today, the farmer's lad, only less than his city contemporary, has the worst that our times afford thrust upon him. In the cities, the public libraries are live to the necessity of getting people to read, and to read that which is, at least, not distinetly harmful, with strenuous efforts to promote the more vigorous and help-ful sort of reading. That those in charge of traveling library systems are fully conscious that wise selection of the books means much to the commonwealths whose interests they serve, may be seen from the character of the books they are sending to the villages, country school and farm houses. It is recorded of one well selected and combined collection of 40 volumes that in three years it traveled over 2,000 miles. and had 918 recorded loans in 28 months of actual circulation in 8 different neighborhoods. Only 64 per cent of this circulation was fiction, so that these encouraging figures show that the miscellaneous books are being read and appreciated. What the general result of the circulation of this better class of books in more or less bookless communitles is, no one may definitely know, but the librarian of any system of traveling libraries could find in the correspondence of her office innumerable and eloquent testimonials of the good work that is being done. So general is the belief that this class of literature will help people to live on farms and in villages more intelligently, and therefore more contentedly, that state

results in many cases. Oregon now has 95 state traveling libraries being sent to as many stations throughout the state. As these libraries belong to the state there is no Oregon people, be located, may charge for their use. wherever they may draw books from the Oregon Library commission at Salem.

Diab Drainer.

The majority of improved appliances

designed to assist and lessen the work of the housewife are too complicated and troublesome to warrant even a

made a part of the DISH DRAINER. dish pan, being hinged to the edge at one of the handles, so that it will not alip. The drainer is also in the form of a pan, having side wall to prevent the dishes failing to the ground when being drained. The water draining from the dishes descends down the luclined bottom of the drainer into the dish pan. A small upright serves to support the outer end of the drainer, and raise the drainer on an incline.

The drainer and dish pan can be in

stantly separated or readjusted.

PROCEEDINGS OF CONGRESS IN BRIEF

races he regarded as inevitable, and he asserted that Japan's present milthat activity was with a view to the supremacy of the Pacific and ultimately she would clash at arms with the United States.

Washington, D. C., April 11.—No definite arrangement has yet been made for the consideration of the Fulton land grant resolution in the House. While a privileged matter, it is not as highly privileged as appropriation bills, and as long as there are appropritation bills waiting to be considered there will apparently be no time to take up the resolution.

by so doing he would arouse those members interested in appropriations early reading was largely of the character then current in the cheap weeklies; but who shall dare to prophesy
that the youth of today, whose literary
excursions take him into the company
of "Buster Brown" and "Happy Holiga." will have an even chance with

Friday, April 10.

Washington, April 10 .- The dove of peace hovered over the house today. Instead of interminable rollcalls and clashes of party leaders on questions of parliamentary law, there was an or-derly session devoted almost entirely to consideration of the naval appropriation bill. Both Chairmna Foss, of Illi- listed men. nois, and Padgett, of Tennessee, of the committee on naval affairs, made exhaustive speeches justifying the action of the committee in reporting what they characterized as a conservative naval program for the next fiscal year.

Thursday, April 9

Washington, April 9.—The bill re-lating to the liability of common carriers by railroads, passed in the house of representatives on April 6, was today passed by the senate without amendment and without division.

The senate bill on the same subject was not confined to railroads, but covered all forms of common carriers, and Dalliver, of Iowa, who had reported it from the committee on education and labor, sought to substitute it for the houre bill, but his montion was de-Numerous amendments were ffered, but all were voted down.

Washington, April 9.—Three times today in the house the Democrats caught the Republicans ampping and forced them to produce a quurum. On one other occasion a vote by teller dis-closed the absence of a quorum, but Speaker Cannon peremptorily applied the Reed rule and secured a quorum to be present. In doing so Cannon had a brief but lively clash with Williams. Notwithstanding repeated roll calls,

progress was made in the transaction of workers in farmers' institutes have per public business. Both the army and sistently acted as advocates of traveling the fortifications bills were sent to con-Both the army and libraries, with excellent and immediate ference; the senate bill to increase the ring with President Roosevelt, that he results in many cases. was, with Democratic help, passed, and the bill to promote the safe transportation of interstate commerce explosives was considered. It will be finally disposed of tomerrow.

Wednesday, April 8.

Washington, April 8 .- The naval appropriation bill, authorizing the con struction of two instead of four battleships, and eight instead of four subma rine torpedo boats, and carrying a total appropriation of \$103,967,518 for the naval service for the fiscal year ending June 30. 1901, was reported to the house today by Chairman Foss of the committee on naval affairs.

The bill carries an item of \$1,000. 000 toward the construction of the subtorpedo boats and an item of \$445,000 toward the construction of sub-surface torpedo boats. Provision the enlistment of 6,000 is made for men to man the following ships, which men to man the following ships, which are to be put in commission within the next few months: The California, Mississippi, Idaho, New Hampshire, South Dakota, North Carolina, Mon-ana, Chester, Birmingham and Salem; and for 1,500 men required to man torpedo boats not now in commission.

Representative Hobson, of Alabama, submitted a minority report recommending that provision be made in the bill for four first-class battleships instead of two.

Washington, April 11.—Debate on the naval appropriation bill in the House today resolved itself in the main into a discussion of the possibilities of war between the United States and Japan. In line with his well-known views on the subject, Hobson, of Alabama, pleaded for four battleships instead of two for the next fiscal year, and pointed out that from now on the United States should have a fixed policy with regard to may all construction. A war between the yellow and the white races he regarded as inevitable, and the service of the day will take another adjournment until Monday of next week. This propulsions leaders because no new measures now on the calendar are likely to be enacted this session. The unfinished business is a bill by Gamble to regulate the settlement of the accounts between the United States and the several states relative to the disposition of public land. It is understood that this bill will not be passed at this session, and that the other land bills, such as the one to provide an enlarged homestead, will also go over until part again. will also go over until next session at

Expectations are that there will be little legislation except the appropriation bills, and it is not impossible that congress will be ready to adjourn some time between May 15 and May 30.

Washington, April 7.—The whole of the session of the house today was de-voted to the consideration of the District of Columbia appropriation bill. Iwo amendments of more or less national interest were adopted, one providing for 75-cent gas for all district establishments and the other requiring that all outside doors to public build-ings should open outward and that new baildings shall have four exits. An effort to secure the incorporation of a child-labor provision applicable to the district failed. The bill, which appro-printes \$9,561,450, was passed and thereupon the house, out of respect to the memory of the late Representative Abraham L. Brick, of Indiana, took a recess until 11:30 o'clock tomorrow, being still on the legislative day of Mon-

Monday, April 6.

Washington, April 6 .- The army bill, washington, April 6.—The army bill, carrying an appropriation of almost \$100,000,000, was passed by the senate today practically as reported from the committee on military affairs. The only amendment adopted carried an appropriation of \$20,000 for a system of water works for Fort William Henry Harrison, Montana. The bill materially increases the pay of officers and enly increases the pay of officers and en-

The fortifications bill, reported to the senate today, carries Senator Ankeny's amendment, increasing the appropria-tion for fortifications on Puget sound \$1,000 000. As the billi passed the house, it appropriated \$747,000 for this work. The appropriation is not item-ized. The senate today passed An-keny's bill, appropriating \$220,000 for a public building at Walla Walla.

Washington, April 6.—Beyond fore-ing roll call on the approval of the journal and on adjournment, the Democrats of the house today offered no obstruct on to the orderly transaction of obstruct on to the orderly transaction of business. This being suspension day, several important bills were put through by practically unanimous vote. Among these was the Sterling employers' liability bill, only one vote being recorded against it, that of Littlefield, of Maine, and the bill establishing a naval station at Pearl Harbor, Hawaii, and appropriating \$650,000 for the purpose, against which Sherwood, of Ohio, stood alone.

At 5:10 p. m. the house took a recess until 11:30 o'clock tomerrow morning.

Ridder Sure of Victory.

Washington, April 9.—Herman Ridder, of the New York Staats Zeitung, who represents the Newspaper Publishers' association in their demand for free wood pulp, so as to reduce the price of white paper, said today, after conferjourn without passing such a mersure.
Mr. Ridder said he had the written
pledges of 68 Republican members of the house, which, added to the Democratic vote, makes a large majority. Mr. Ridder declares that the ways and means committee of the house is responsible for not reporting a bill.

Federal Law Is Violated.

Washington, April 13.—The President has received and referred to the Attorney General a letter signed by six men, two of them of the same family, styling themselves "citizens of Rutherford, N. M., in conference assembled," protesting against the manner in which the anarchist meet ing in Union Square, New York, on March 28, was dispersed, and charging that the local authorities of that city are grossly violating the Federal

Castro Did Not Lose Mail.

Washington, April 13.—President Castro's caustic reply to the com-plaint filed at Caracas regarding the opening of mail sacks containing mail for the gunboat Tacoma at the La Guayra postoffice has reached the State Department. A report of the State Department. A report of the incident has also been received at the Navy Department. It appears that the La Guayra postoffice received 83 sacks of mail, three of which were for the Tacoma. The sacks were all opened, as is the custom at the office. was not until this had been done Tuesday, April 7.

Washington, April 7.—The senate today adjourned until Thursday, and on
